OFFICE OF THE PRINCIPAL

Kurt Marella

March 16, 2020

Dear Parents and Students,

As you are aware, beginning tomorrow, Tuesday, March 17th Winslow Township High School will be closed in an effort to slow and stop the spread of the Coronavirus and with that we will activate our remote learning plan. The high school will operate using the Google Classroom platform for instruction, lessons and assignments.

Through this platform students will be able to view teacher lessons, interact with teachers and complete assignments daily. Many students have utilized this platform throughout the school year and for those that have not, they will be receiving access codes or an invitation from their teacher directly to their student email accounts.

Parents may oversee the Google Classroom and the lessons provided by utilizing your students own sign in credentials. This can be accomplished by logging into Classroom.Google.com and using your student's login and password. Your student's login is - Student Identification Number@Winslow-Schools.com and the password is- 2 digit month, 2 digit day and 4 digit year of their birthday.

Students should sign into their Google Classroom accounts daily starting at 7:19am and will follow their regular courses using the early release bell schedule. Each teacher will provide at least one assignment daily which will be used to generate attendance. It is recommended that students sign at 7:19am, however, if they are unable to at the scheduled time, they will still receive credit for work and attendance.

Students that do not have internet access will be receiving packet assignments of work and will be invited to join their teachers Remind 101 accounts. If cell phone capabilities are available, they may communicate with teachers and update assignments. Parents and students are asked to contact the high school to receive additional work from teachers.

If you have any questions please contact teachers or administration at any time.

Regards,

Kurt Marella, Principal
Winslow Township High School
